# WHAT IS THIS PROJECT ABOUT?

For this project, we will find three news articles and take 25 words from each to cut up and resort so they are in a new order. This new order will create a new meaning and give us a personalized theme for our Netart project. A Netart project is a piece of artwork that can only be viewed on the internet. This is what we are making.

# Brainstorming for possible themes...

**That applying global intelligence unknown for available**

**Good advance and technology have models showing**

**See environmental holds some news many not new**

# Theme for Netart Project:

The environment holds some news, many not new.

# Word Brainstorming

- Environmental changes
- weather
- global warming
- Natural disasters

The environment creates news everyday and although it is “news”, it is not new. We have experienced and endured the natural struggles of our world for a very long time.

# Natural Disasters:

- Tsunami/-waves, buildings, floods, people, boats, swimming
- Hurricane/-trees blown, floods, people, rain, wind
- Tornado/-wind, cows, tractors, fields, valleys, trees blown, shelters, hail
- Earthquake/- ground shaking, seismographs, cracks, damage, people
- Wild Fire/- fire, smoke, trees, charcoal, animals, homes burned, firefighters
- Avalanche/- snow, skiing, climbing, coats, landslide
- Volcano/- lava, people, islands, mountains, ash, acid water, heat
